October 2013 Determination: *Accredited with Conditions, 2012-2016 (Period of accreditation reduced)*

The CAAM-HP at its meeting held October 11-12, 2013 decided that in the absence of the timely submission of a Progress Report from the UWI School of Medicine in response to CAAM-HP's letter of June 23, 2012, the university would be sanctioned; hence the original period of accreditation which was 2012-2017 was reduced by one (1) year to 2012-2016.

The CAAM-HP stressed that in subsequent annual reports an outcomes analysis of graduating students should be provided.

June 2011 Update

The CAAM-HP at its meeting held June 24-25, 2011 received and considered the interim reports from the School of Medicine, Mona, Cave Hill and St Augustine Campuses.

The meeting noted that it would be useful to have an overall picture from the University Dean in addition to the individual reports submitted to the CAAM-HP.

In addition the meeting raised the following issues in respect of the three campuses:

- The imperative of signed agreements/ MOU's between the UWI and the clinical teaching facilities particularly in the light of increased student numbers and the approval of some governments of additional medical schools.
- The meeting was made aware that there was a signed agreement between the UWI and the Ministry of Health, Jamaica in regard to the use of the ministry's facilities for medical teaching but noted that this had not been submitted in the documentation available to CAAM-HP.
- Whether there was a sufficiency of accredited internship posts for the increased numbers of students on graduation.
- The admission of an increased number of students before facilities are available, resulting in overcrowding in the Anatomy laboratory at the Mona Campus.

In the light of the concerns raised by the meeting, CAAM-HP recommended that there be no further expansion in student numbers until the issues are satisfactorily resolved.

July 2010 Update

CAAM-HP, at its meeting held July 2-3, 2010, considered the progress report from the new five year programme at the Cave Hill Campus and indicated that it looks forward to receiving a more comprehensive annual report.
